

All of us know Kiruv is a great **מצוה בין אדם למקום** and also a great **מצוה בין אדם לחברו**. It's essentially teaching **תורה**.

All of us also understand that giving someone a Challah or potato kugel for Shabbos, explaining to someone how special they are, or even sharing an article on something Jewish, or a Kiruv website, can have a great effect.

If a great many of us actually viewed their daily interactions as opportunities to gently influence people, enormous **כבוד שמים** would result.

We are offering to arrange individual personal guidance for anyone wanting to get even slightly involved.

Additionally, anyone already involved is urged to sit down with a few Frum people and encourage them to get involved, and work together to identify and overcome whatever they're uncomfortable with. We are offering to help facilitate such meetings.

We're also offering to supply you with Kiruv cards (cards with Kiruv websites; see [kiruvcards.com](http://kiruvcards.com)).
